

Basic Life Support in Obstetrics

Thursday, June 2nd, 2022 (8:30 am to 5:30 pm)

Basic Life Support in Obstetrics (BLSO) is designed to improve the management of normal deliveries, as well as obstetric emergencies by standardizing the skills of first responders, emergency personnel and maternity care providers.

This one-day course adapted from the Advanced Life Support in Obstetrics (ALSO®) Program, BLSO offers evidence-based, hands-on workshops with mnemonics and case-based discussions that can play an important role in promoting teamwork. Pre-hospital resuscitation, communication in transit, and transition to hospital care can be improved when pre-hospital and hospital providers share a conceptual framework.

PRE-REQUISITES:

- Pre-Course work is REQUIRED to introduce the concepts and must be completed more than 24 hours prior to the course start date.
- Pre-Registration is REQUIRED because this class is not free. Please use the link below for registration and respond to the provided email for the pre-course work when you receive it. If you register and then do not attend the class you will be responsible for the \$70 course fee.

TOPICS COVERED:

- Normal Labor
- Electronic Fetal Monitoring
- Emergent/Urgent Prenatal Assessment
- Preterm Labor and Premature Rupture of Fetal Membranes
- Maternal Resuscitation and Postpartum Hemorrhage (PPH)
- Breech, Twin Gestation, Cord Prolapse, and Other Malpresentations
