

EMS Vehicle Operator Safety

Tuesday & Wednesday, June 21st & 22nd, 2022

Buckle your seatbelt for a weekend built to help improve safety for yourself, your partner, and your patient. NAEMT's EVOS course addresses causes of injuries and deaths, and focuses on the specific behaviors that need to be changed to create a culture of safe driving.

In addition to NAEMT's EVOS curriculum, additional topics are added to this weekend to bring these critical topics to as many EMS professionals as possible.

- **The National Traffic Incident Management Responder** training program is designed to equip responders with core competencies to address responder safety on highway incidents.
- **Wheelchair Restraint** course provides an overview of the proper way to secure passengers with special needs and their wheelchairs.

DAY 1:

Start	Lesson	Instructor
