Open Positions in Cedar County

CMH Cedar County would like to advise one and all that we now have the following open three shifts. They are as follows:

I: Stockton station One Medic position

II: Stockton station One EMT position

III: Eldorado Springs One EMT position

These are 24 hour shifts, 72 hours a pay period. There is a five hour buying the night possibility on each shift.

All applicants must be willing and able to work either station if needed.

If interested please email

Thomas.Ryan@citizensmemorial.com no later than Feb 14th by midnight. Interviews will be held the following week.

Thanks,

Tom Ryan CMH Paramedic
Southern EMS Regional Manager
Cedar / Polk County
Citizens Memorial Hospital

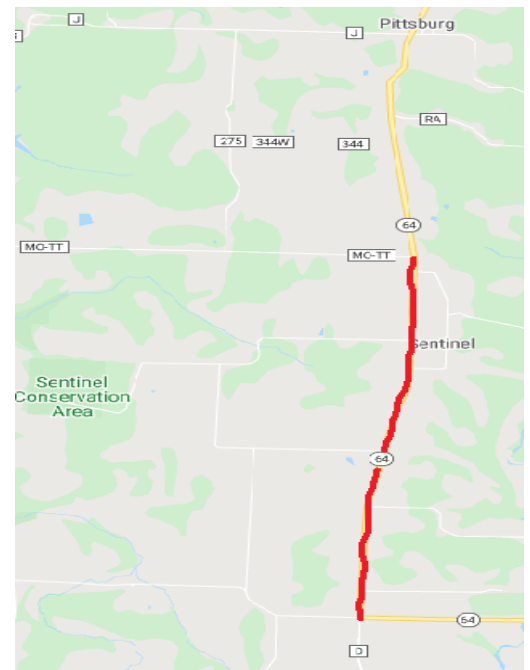

MDOT ROAD CLOSURE

WHEN: FEBRUARY 3RD AND 4TH

TIME: 8AM TO 4PM

WHERE: BETWEEN 64 HWY (MOHAWK CORNERS) AND TT HWY IN POLK COUNTY. See map.

WHY: PIPE AND CULVERT REPAIR WORK

DAILY SHIFT HUDDLE 845am daily

Crew Leader Corner

We have seen a lot of improvement in overall documentation, everyone keep up the good work. As the leadership works on getting more details on documentation agreed upon, we have been trying to update the guideline on the ozarksems links.

Carolyn Ream & Lucas Weaver: Thank you for all your help on Friday night! Not only did you guys take one back to Hermitage, but also ran a call in Morrisville after clearing Spfd! - Allen & Mis

Emma McAntire & Rocco: Great work on the code Saturday night! You guys had CPR going and a great report upon our arrival! Amazing teamwork by everyone. - Allen & Mis

Allen Werner	3 years

Spring Competency

STEMI competency Feb 9, 16 & 18. You must register on ozarksems.com

CMH EMS Weekly Update

This can be found on Slack

- Weekly update from meetings:
- We have made some adjustments to the education and competency requirements for staff. Each requirement has options for remediation, so it is very attainable. Please see the email with all the details. These changes have been approved by Medical Direction, Human Resources, and your leadership team. **March 1st** will be the go-live date. The Feb protocol quiz and STEMI competency have been altered to the new format, but requirements for attendance remain the same for those two events.
- The FTO list for 2021 has been finalized.
- Looking like we are ready to make our bulk order of the disposable laryngoscope blades next week. When they come in, the blades and handles we currently have will go in backup status on each ambulance and the new ones are completely disposable (including the handle).
- The budget requests have been finalized. There are 34 different things we are asking for totaling \$1.9M.
- The leadership team will start having individual discussions with everyone for our bi-annual performance center discussion. They are due by the end of March.
- Protocol committee met today and has an assignment to solicit some input on the format each of you prefer. I'm going to give a shameless plug with my opinion here. The options are listed below:
 - Option 1. Online format similar to what we have. Slightly condensed to try to fit as many on each page as possible and printed copies in each ambulance and in each station. Formulas and all the website bells and whistles will still work. Designed with a lot of "considers" and promoting critical thinking.
 - Option 8. Change the online format of mostly paragraphs to mostly flowcharts like AHA or Cox algorithms. Will be a total pain in the butt for me to do the graphics to make flowcharts work. Good for those that want to follow A then B then C and a strict roadmap for patient care.
 - Option 10. Go back to the way we used to do it with one PDF document. Will lose all the online advantages such as formulas and calculations.
