Please make sure to review your charts before locking and sync. Double check and make sure that you check all the required things for a complete chart. In the QA process, we are seeing a lot of charts missing information such as blood sugars and temps.

Thanks,
Steve

Step #1
Identify that the barrel is 2/3 or more full

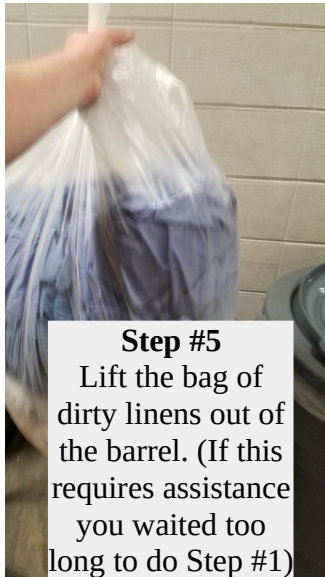

Step #2
Remove the lid of the linen barrel

Step #3
Pull up the edges of the bag of dirty linens

Step #4
Tie off the bag of dirty linens

Step #5
Lift the bag of dirty linens out of the barrel. (If this requires assistance you waited too long to do Step #1)

Step #6
Place the bag of dirty linens in the laundry cart provided

Step #7
Replace the bag in the now empty linen barrel

Step #8
Place the lid back on the barrel and insure that it is out of the walk path

Step #9
Congratulate yourself
(Because being an adult is hard)
