

# The EMS Weekly Monitor

March 15, 2021

Thanks **Morgan Young** for sending these photos of a couple of calls.

The top three were from a mutual aid call to Appleton City. The bottom two were from a fatality accident in Filley.

After reviewing charts and talking with Theron, I have noticed some discrepancies in the way everyone is documenting IV and IV Bolus.

- \* IV Therapy should be used for your IV start.
  - ☒ Most of the time this will be saline lock with a total of 10cc of fluid given.
- \* If you initiate a fluid bolus, the IV Bolus needs to be used in the flowchart.
- \* In the flowchart, you need to document total amount of fluid given.
  - ☒ If you gave 750cc out of 1000cc bag, document 750cc's were given.

If you have any questions, please do not hesitate to contact myself or Theron.

Steve Keller  
CMH EMS Supervisor

---

14:00:00 IV Therapy Saline Lock - Total Fluid 10 ml

---

14:10:00 IV Bolus Lactated Ringers - Total Fluid 750 ml

---

**DAILY SHIFT HUDDLE 845am daily**

Thank you **Jerry Daily** & **Eric Schmidt** for taking the LDT to Dexter Tuesday night!! – *Steve, Missi and Allen*

Thanks to **Taylor McKlentic** for first responding off duty to the call in Filley. – *Morgan Young*

Thanks to everyone in the service for picking up extra shifts and coming in to do LDT's. Your teamwork is appreciated! – *Cheryl Andrew*

Thank you to everyone that worked 3/6 and helped with coverage in Hickory. I cannot express how much the support shown that day proved what a great EMS FAMILY and service we have. - *Alice*
