April 26, 2021

Message from Steve Keller, Polk Supervisor

I wanted to let everyone know that the clinical QI is looking much better. A lot of the issues were documentation and not patient care.

I want to thank everyone for your improvement. I will continue to look at all TCD's, air transports, and anytime a patient is transported with lights and sirens.

I am going to start looking at air transport scene times and time spent at the LZ. After talking to the managers this week, we all agree that an air transport should be treated like a TCD. If you have an extended scene time or extended time spent at the LZ, make sure you document that in your chart.

Have a great weekend,
Steve Keller
